COB LED STRIP RGB

The COB technology allows for a higher density of LEDs on the board, resulting in a more uniform and intense light output . Supplied in custom lengths, 5m or 10m rolls cut to length. 3M adhesive tape on the backside. Viewing angle 170 degrees.

Decorative, Architectural Lighting, Joinery, Landscaping and Water features. Path or contour marking. Residential and Commercial lighting.

Residential | Commercial   DL-COB-RGB
                                PRODUCT CODE

TECHNICAL DATA		CODES
Watts Per meter	15W	(15W)
LED Colours & Lumen output	RGB | 500 - 600lm	
IP Rating	IP20	(IP20)
Power Input	12V DC	(12V)
	24V DC	(24V)
LED Length	Custom	(C__mm)
	5m roll	(5m)
	10m roll	(10m)
PCB Width	12mm	
Product Code Code Example:	**DL-COB-RGB** **DL-COB-RGB-15W-27K-IP20-12V-5M**	
CRI	> 90	
Dimmable	Yes- with suitable driver	
Working Temperature	-20° | 40° C	
Lifetime	> 50,000 hrs	
Warranty	3 years (replacement)
